5 ISO 9000:2015 QMS Days Training Course

Course Description

Introduction To follow the PRINCIPLES OF QUALITY MANAGEMENT through the establishment of a QUALITY MANAGEMENT SYSTEM in any organization to focus on customer satisfaction enhancement and to continually improve the quality of products and service being offered with clear understanding of the customer requirements

Purpose Development of fundamental Quality Management System based on ISO 9000 series of standards

Course Description

Objective To achieve standardization, consistency in operation leading to defect prevention and continual improvement in all business processes By providing value adding services in terms of diagnostics, training, consultancy, facilitation, counseling and audits to identify the processes, their interfaces, and measures for operation and control to achieve the quality objectives.

Intent of the course

Awareness & Implementation Training :

By the end of the course the delegates would be able to :

- Interpret Quality System Terminologies
- Interpret the requirements of ISO 9000 standard
- Plan for the preparation of documentation & implementation
- Plan for third party certification

Notes

This is an intense course with daily homework and a final exam (similar to the LA exam). A study guide is issued to direct participant's pre-class study.

Who should join

Those who require detailed knowledge of QMS Auditing Process. Those managing internal QMS Audit within their organization. Those who wish to become registered QMS Lead Auditor with IRCA, London, U.K. Those who wish to and are responsible to implement QMS based on ISO 9001:2008 requirements, in the organization. Existing QMS internal auditors who wish to expand their auditing skills

Bring to Class

Students should bring to class: a calculator, a straight edge, pencils, highlighters, lots of questions, and a "CAN-DO" attitude. Also, participants must bring the appropriate codes required for the exam.
