

LEAD AUDITOR **DASH** Inspectorate Pvt. Ltd

5 Days Training Course

Course Description

Course Description

Trained and experienced counsellors of DASH provide specialized assistance and guidance for the implementation of Occupational Health and Safety Management System in any organization. DASH has assisted number of organizations in this endeavour and has been able to install a robust OHSAS .

. Purpose

Develop, install Occupational Health and Safety Management System in line with OHSAS 18001:1999.

Objective

To help an organization to understand the hazards and risks which can be minimized or removed to assure its employees and other interested parties that they are practicing a hazardless process in meeting the product requirements of their customers.

Process

By providing personalized and specialized services in terms of Hazard identification, risk assessments, risk grading, training, documentation consultancy and Health & Safety Audits.

Intent of the course

Introduction

In the changing environment, organizations are becoming more and more aware of the need for implementing a health and safety management system. Occupational health and safety management system (OHSAS) is employee oriented and provides ample scope for improvement in the performance of the organization by controlling the related risks. Performance improve In the changing environment, organizations are becoming more and more aware of the need for implementing a health and safety management system. Occupational health and safety management system (OHSAS) is employee oriented and provides ample scope for improvement in the performance of the organization by controlling the related risks. Performance improvement achieved through less liability less accident rates, improves the morale of employees. This competitive advantage to an organization from the insurance coverage and legal expenses. This is applicable in addition to engineering industries, to pharmaceutical. Pesticide, petrochemical, tannery, chemical and textile industries.ement achieved through less liability less accident rates, improves the morale of employees. This competitive advantage to an organization from the insurance coverage and legal expenses. This is applicable in addition to engineering industries, to pharmaceutical. Pesticide, petrochemical, tannery, chemical and textile industries
